## TRAY TABLES

---

### OUTDOOR & INDOOR LOUNGE

---

#### EYELET

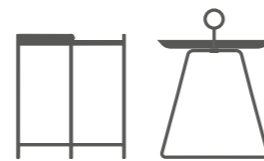

This graphically beautiful side table can be used in many ways – individually or in combination with different sizes and colors. The EYELET tables are easy to move to where they are needed – indoor as well as outdoor. The EYELET tray table has a special drainage system, which keeps the tray free from water after a rain shower. EYELET is made in powder coated aluminum with powder coated steel legs and comes in 3 different sizes.

Designed by Henrik Pedersen

#### EDGE

EDGE tray table is suitable for both indoor and outdoor use. The half ring shaped handle makes it easy to move the table between the living room and the garden, and when laid down it functions as a table edge, making sure everything stays in place. EDGE is made in powder coated steel and comes in 3 different sizes.

## TABLES

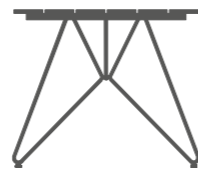

### OUTDOOR DINING & LOUNGE

Combinations of powder coated steel or aluminum, bamboo and Danish household plastic waste create a collection of well-designed outdoor dining tables which all complement HOUE dining chairs perfectly.

In the design process, a lot of effort is put into form and shape to create tables, that not only please the eye but also provide optimal stability and functionality.

# BAMBOO IS THE LARGEST MEMBER OF THE GRASS FAMILY

---

**THE GROWTH OF BAMBOO IS VERY FAST – THE SPECIES THAT WE USE FOR FURNITURE GROW MORE THAN ONE METER WITHIN 24 HOURS! BAMBOO RE-PLANTS ITSELF. NEW BAMBOO SHOOTS WILL SPREAD FROM THE ROOTS.**

Bamboo releases more oxygen than any other plants, actually 35% more than ordinary woods. This is due to the fast growth. Bamboo also recycles large amounts of CO<sub>2</sub>. Bamboo can absorb 30% CO<sub>2</sub> and release more than 35% oxygen, so choosing bamboo as material means contributing positively to CO<sub>2</sub> evolution. In addition to being, a very fast-growing plant, bamboo is a very strong and hard material and stronger than traditional woods. Bamboo is very stable and is affected only very little by humidity.

**BAMBOO CARE** The bamboo lamellas on HOUE tables are treated with a special impregnation from the factory, which is drawn into the bamboo. To keep the table nice, it is necessary to treat the bamboo lamellas on a regularly base with oil suitable for bamboo. We recommend you to, oil the table before taking it into use, and again after approx. 4 weeks, then as needed (3 – 4 times a year).
